WHICH PLAN IS RIGHT FOR YOU?

The Chevrolet Buick GMC Cadillac Tire Protection Plan is designed to help defray most of your out-of-pocket cost for potential repairs or even cover the replacement of your vehicle's tires and wheels. It's affordable, easy to buy – and it's a genuine GM product!

- **CBGC TIRE**

Your covered tire failed due to a road hazard and it can be safely repaired, the tire repair will be covered. If the tire cannot be safely repaired, and there is more than 2/32" (1.6 mm) of tread remaining on the tire, the tire will be replaced with an exact make/model. If an exact make/model of tire is no longer available, it will be replaced with a comparable quality tire.

- **CBGC TIRE AND WHEEL**

If this plan is purchased, you will get the same great protection as the CBGC Tire Protection Plan, but this Plan includes wheel coverage (non-chrome wheels). Those same road hazards that can damage your tires can also impact your wheels. The CBGC Tire and Wheel Protection covers you in the event that damage goes beyond your tire. Extra peace of mind!

- **CBGC TIRE, WHEEL AND CHROME**

Chrome wheels are an expensive investment and it is important to protect your asset. This Plan will cover the repair and/or replacement of your tires and chrome wheels due to a road hazard.

- **CBGC TIRE, WHEEL AND COSMETIC**

Your selection of the Alloy Cosmetic option upgrade Plan coverage will include cosmetic repair to Alloy wheels. Protect your resale value by keeping your vehicle in its best condition at all times. Cosmetic coverage does not apply to Chrome wheels.
